AMERICA DEFEATS ENGLAND AT TENNIS SEAMAN NARROWLY ESCAPES DEATH

Man Saved From A Watery Grave

General Fleet News--Funeral of Lepet-sky and McDermott Held Today--Shore Leave This Afternoon On Maryland, Pennsylvania and Colorado

Owing to the prompt and meritorious medical assistance of Past Assistant Surgeon A. B. Hayward of the U. S. S. Colorado, Coal Passer J. M. Heiden of the Colorado was this morning saved from a watery grave. Heiden, a few days after the fleet left San Francisco, was overcome with the intense heat of the fire room and was ordered to the sick bay, where he remained up to the time that the fleet arrived. Some time last night, or in the early hours of the middle watch of this morning, Heiden managed to elude the stewards in the hospital, and in some way managed to gain the fore-castle deck and jumped overboard in the shark-infested waters of the outer harbor. Shortly after colors this morning one of the crew engaged in cleaning up the quarter deck reported to the

officer of the deck that a body of a man, face downward, was floating off the starboard quarter. A boat crew commanded by Coxswain W. C. Baker, were ordered to pick up the body, and in a few minutes Heiden's apparently lifeless form was laid on the quarter deck. Surgeon Hayward, who was on deck at the time the body was brought on board, decided after a hurried examination that a spark of life still burned, and with the usual navy alacrity went to work to save the man's life. Twenty minutes after Heiden was brought aboard, he was able to get forward again. All the officers are speaking in the highest terms of Surgeon Hayward's great work over what appeared to be a hopeless task. (Continued on Page 4)

CITY EMPLOYEES MUST PAY UP

Tax Delinquents Will Be Dealt With In Letter

The employees of the Federal departments are not the only ones who neglect to pay their Territorial taxes. The result of a letter sent to the heads of the Federal departments in Honolulu by Attorney General Hemenway, suggesting that it would be a good idea to advise the employees that they might be more prompt in meeting their tax obligations had a prompt effect and now the same method will be pursued in regard to the employees of the City and County of Honolulu. There are a number of tax delinquents among the city and county employees and Attorney General Hemenway will draw up a letter of "suggestion" to Mayor Fern Monday. It is expected that prompt action will be taken and that as a result the receipts by the Tax Assessor will be materially larger within the course of the next week.

WRIGHT'S MONEY IS PAID OVER

Bishop & Company, bankers, this morning paid over to Treasurer Conkling the sum of \$774.20, the amount of the deposit that the bank held in the name of William H. Wright, the defaulting treasurer who fled from the Territory after securing about \$17,000 of the Government's funds. A suit was brought by the Territory to garnish the money and Judge Whitney returned a judgment holding that the money was the rightful property of the Territory of Hawaii.

AMERICA VICTOR

PHILADELPHIA, Sept. 11. — America defeated England here today in the great tennis tournament. Wright challenges Australia for Davis cup.

Baseball Scores

SAN FRANCISCO, Sept. 11. — Results of today's baseball games are as follows: National League: Pittsburgh 2, Cincinnati 1; New York 4, Brooklyn 0; New York, 1, Brooklyn 10; Boston 3, Philadelphia 2; Boston 1, Philadelphia 0; Chicago 10, St. Louis 4. American League: St. Louis 2, Chicago 1; St. Louis 3, Chicago 1; Philadelphia 1, Boston 0; Philadelphia 0, Boston 1; Washington 0, New York 3; Washington 1, New York 2; Detroit 7, Cleveland 1.

Ohio Wins

SEAGIRT, Sept. 11. — Ohio won Dryden shoot, Marine Corps second.

THE FLEET TODAY

Shore leave begins for men from the Pennsylvania, Maryland and Colorado this afternoon when liberty parties will be landed. Leave does not begin for the men of the other boats until coaling is done. The funeral of the two men killed by the explosion of a boiler tube on the Colorado last Wednesday, was held this morning. The remains being buried in the navy plot in Nuuanu cemetery. No records are being sought in coaling as no barges are being used, the crew coaling from one side of the ship. The West Virginia's record of 140 tons in one hour is probably among the best. No inter-vessel sports will be held until the vessels are paid with coaling, nor will the island boys get a chance to tackle the fleet huskies until that time.

RIOTERS MUST SERVE SENTENCES

Japanese Credited On Time Already In Jail

The Waimanalo rioters appeared before Circuit Judge De Bolt this morning for a mitigation of the sentence imposed upon them in the District Court before Judge Andrade and while they did not succeed in having the sentence reduced, Judge De Bolt decided that the interests of justice would be served by allowing the execution of the sentence to date from the day upon which it was imposed, notwithstanding the fact that an appeal was filed, which is considered as a stay of execution. The men have accordingly served two months of their sentence. Dol, the leader, was sentenced to six months and four others to five months. In his plea for a mitigation for sentence this morning Attorney Lightfoot claimed that the men pleaded guilty in the District Court without knowing what they were doing and also that he was not notified when the case was to come up. The testimony of Interpreter Townsend and Chester Doyle did not bear out Lightfoot's assertion. The men were charged with an assault on a lady.

MOTT-SMITH ASKS PLANTATION AID

Must Improve Health Conditions In Territory

SUGGESTS INSPECTOR ON ALL PLANTATIONS

President of Board of Health Has Plan That Will Assure Betterment in Conditions—Too Much Typhoid.

In a determined effort to improve the general health conditions of the Territory, President Mott-Smith of the Board of Health has formulated a tentative plan which he will bring before the consideration of the plantation agencies with a view of having action taken at the earliest possible moment.

The idea of the President of the Board of Health is to have each plantation in the Territory make provision for the salary of a sanitary inspection officer, whose whole time will be devoted to seeing that sanitary conditions are enforced in the plantation camps. It is proposed that the officer shall be under the direction and supervision of the Department of Public Health so as to insure unity of action in the effort that will be made to better the conditions on the plantations.

"There is altogether too much typhoid fever in Hawaii at the present time," said Mott-Smith this morning, "and I feel that it is incumbent upon the Department of Public Health to use its best efforts to evolve some plan which will not only better the sanitary conditions on the plantations, but will protect Honolulu from the most common source of trouble so far as the general health conditions of the community are concerned. While the suggestion of having each plantation provide for a sanitary inspector would necessarily involve an expenditure for salaries, it would be a saving in the end, for whenever an epidemic breaks out the loss to the plantation affected is far more than the amount that would have to be appropriated to meet the costs of a salary."

The typhoid epidemic of Hawaii has been brought under control, but there are still a large number of cases in Hilo and the vicinity. The typhoid cases are being found as far as Honolulu in the Hamakua District, showing the wide extent to which the epidemic has been felt on the big island.

President Mott-Smith believes that a consistent attempt to improve the health conditions on the plantations will be immediately felt in Honolulu and believes that the first and most important step in that direction will be in assuring the regular and efficient inspection of the camps.

BULLETIN ADVERTISING

Committee On Tariff Named

BEVERLY, Mass., Sept. 11. — President Taft has announced the appointment of the Tariff Commission. They are Henry C. Emery of Yale, chairman; James B. Reynolds of Boston, Assistant Secretary of the Treasury, and Alvin H. Sanders of Chicago, editor of Breeders' Gazette.

North Pole Is Ours

WASHINGTON, D. C., Sept. 11. — A message has been received by the State Department from Lieutenant Peary as commander of the expedition discovering the North Pole, stating that he had taken possession of the polar regions in the name of the President of the United States. The region around the long-sought Pole thus becomes the property of the United States through the right of discovery. Secretary Winthrop wired back congratulations.

Philippine Trouble

MANILA, Sept. 11. — The Provisional authorities and police have failed to maintain order in carrying out the sanitation laws.

CONSTABULARY TO RETURN. BULACAN, Island of Luzon, Sept. 11. — The Constabulary has been ordered to return here, as the local authorities are unable to cope with the mutiny. Part of the Constabulary recently rebelled, killed one officer and fled to the hills.

THE OTHER ONE. CHRISTIANSTAD, Norway, Sept. 11. — Dr. Cook, discoverer of the North Pole, sailed today for the United States, after being feted and honored by the crowned heads of Denmark and Norway. His reception in New York will be a feature of the Hudson-Fulton celebrations, and he and Peary, arriving within a few days of each other, may thresh out their argument in person.

SAN FRANCISCO, Sept. 11. — Sugar — 96 degree centrifugals, 4.10. Beets — 88 analysis, 11s 9.3-4d. Parity, 4.50 cents. Previous quotation, 11s 10.1-2d.

THOUSAND ACRES FOR COTTON FIELD

Kunia Development Co. Leases a Large Tract

The fact that the cultivation of cotton in Hawaii has now reached a point where it will soon be included in the constantly increasing number of diversified industries that are being developed was shown this morning in the filing of a lease in the Bureau of Conveyances. One thousand acres of land in the vicinity of Honolulu have been leased by the Oahu Railway and Land Company to the Kunia Development Company, the acreage to be devoted to cotton raising. The lease runs for a period of twenty

ty years at an annual rental of \$2.50 per acre with the stipulation that in the event of the profits being realized in excess of \$100 per acre per annum, one per cent of the gross income will revert to the Oahu Railway and Land Company. The cultivation of cotton will be undertaken upon a large scale and it is expected that no time will be lost by the company in preparing the ground for planting, the investigations pursued by the Hawaii Experiment Station having provided a dependable basis upon which to begin cotton cultivation in Hawaii on a large scale.
